PROFESSIONAL EXPERIENCE

Shopify / E-Commerce Developer (Contract) | Custom Jewelry Brand (Atelier Dacko) (2023 – Present)

- Migrated a custom jewelry brand from WordPress to a 14+ page Shopify storefront on the Dawn theme, growing it to 200+ SKUs over 3+ years.
- Built the storefront in Liquid and ran the project end to end as sole developer and main client contact.
- Own ongoing page and blog content plus Google Search Console and SEO keyword work, steadily growing organic search visibility. Currently implementing Contentful for the brand's content (in progress).

CMS Developer (Contract) | SEO AI Agency (Confidential) (Jan 2026 – Apr 2026)

- Turned Figma designs into a custom 8-page HubSpot site for an SEO AI agency, building reusable HubL modules and page templates.
- Improved performance across the build — 30% faster page loads and PageSpeed above 90 — through image optimization, lazy loading, and caching, lifting Core Web Vitals and search rankings.
- Set up and configured the HubSpot CRM with team roles and permissions, launched the site, and ran a month of QA for a clean handoff.

WordPress Developer (Contract) | Vintage Gaming Retailer (Confidential) (Jan 2024 – May 2024)

- Took over a 400+ item WordPress e-commerce store, rebuilding and restructuring product pages in Elementor with hands-on HTML and CSS.
- Wrote a validation script that enforced JSON product rules during the catalog migration, catching duplicate SKU errors before import.
- Audited and fixed on-page SEO, tuned product pages to target keywords, and hardened the site with plugin-based and manual security fixes.

Sous Chef & Team Lead | Multiple Venues, Toronto (2015 – 2025)

- Led teams of 5–20 for ten years: hired and trained staff, managed scheduling and food cost budgets, and coordinated cross-functional operations with ownership and front-of-house.
