PROFESSIONAL EXPERIENCE

Shopify / E-Commerce Developer (Contract) | Custom Jewelry Brand (Atelier Dacko) (2023 – Present)

- Migrated a jewelry brand from WordPress to a 14+ page Shopify (Dawn) storefront, scaling to 200+ SKUs and 500+ monthly visitors over 2+ years.
- Built the storefront in Liquid, set up Stripe checkout, and ran it end to end as sole developer.
- Own page and blog content plus Google Search Console and SEO keyword work, growing organic search visibility.

CMS Developer (Contract) | SEO AI Agency (Confidential) (Jan 2026 – Apr 2026)

- Turned Figma designs into a custom 8-page HubSpot site for an SEO AI agency, with reusable HubL modules and page templates.
- Cut page load 30% and lifted PageSpeed above 90 via image optimization, lazy loading, and caching.
- Configured the HubSpot CRM with team roles and permissions, launched the site, and ran a month of QA for handoff.

WordPress Developer (Contract) | Vintage Gaming Retailer (Confidential) (Jan 2024 – May 2024)

- Took over a 400+ item WordPress store: rebuilt product pages in Elementor (HTML/CSS) and streamlined a JSON-based product pipeline that cut manual data entry and duplicate SKU errors.
- Audited and fixed on-page SEO, tuned product pages to keywords, and hardened the site via plugins and manual fixes.

Sous Chef & Team Lead | Multiple Venues, Toronto (2015 – 2024)

- Led kitchen teams for nine years: hiring, training, scheduling, food-cost budgets, and cross-functional ops.
