SUMMARY

E-Commerce & CMS Developer (Contentful Certified Professional) with 3+ years of independent client delivery across Shopify, HubSpot, and WordPress, building with TypeScript, React, and Node.js. Hands-on local-LLM engineering with quantized Ollama pipelines for structured, deterministic AI tooling. Ten years of prior team leadership from a culinary career.

TECHNICAL SKILLS

CMS & E-Commerce: Shopify (Liquid, Custom Themes), HubSpot CMS (HubL, CRM Integration), WordPress (Elementor), Contentful (Certified Professional)

Core: JavaScript (ES6+), TypeScript, React, Next.js, Node.js, Express, HTML5, CSS3, RESTful APIs

Data & DevOps: MongoDB, MySQL, PostgreSQL, Docker, Git, GitHub Actions CI/CD, Jest, Python

AI & Tooling: Ollama (Local LLM hosting), GPU optimization (cache, flash attention), Prompt engineering, Claude Code CLI, OpenAI Codex

Project Stack: FastAPI, Redis, Claude API, Docker Compose, JSON-LD, Agentic Architecture

PROFESSIONAL EXPERIENCE

Shopify / E-Commerce Developer | Atelier Dacko, Custom Jewelry Brand (2023 – Present)

- Integrated and customized a third-party ring-builder app so customers configure stone, band, and size, replacing a manual quote workflow.
- Migrated the brand from WordPress to a Shopify storefront (Dawn theme), growing it to 200+ SKUs over 3+ years.
- Built the storefront in Liquid and ran the project end to end as sole developer and main client contact.
- Managed page and blog content, Google Search Console, and SEO keyword work across the storefront.

CMS Developer | SEO AI Marketing Agency (Jan 2026 – Apr 2026)

- Turned Figma designs into a custom 8-page HubSpot site for an SEO AI agency, building reusable, editor-configurable HubL modules and page templates.
- Cut page load time 30% and lifted PageSpeed above 90 through image optimization, lazy loading, and caching, improving Core Web Vitals and search rankings.

WordPress Developer | Vintage Gaming Retailer (Jan 2024 – May 2024)

- Took over a 400+ item WordPress e-commerce store: rebuilt product pages in Elementor (HTML/CSS) and wrote a validation script enforcing JSON product rules during the migration, catching duplicate SKU errors before import.
- Improved target-keyword visibility through technical SEO audits and security hardening.

Sous Chef & Team Lead | Multiple Venues, Toronto (2015 – 2025)

- Led teams of 10 - 20 for ten years: hiring, training, scheduling, food-cost budgets, and cross-functional coordination with ownership and front-of-house.

PROJECTS

Jobhunt | <https://github.com/SimBuds/Jobhunt>

- Local-first Python CLI automating a job search end to end with a quantized local Ollama LLM and deterministic no-fabrication checks (SQLite, Playwright).

CERTIFICATIONS & EDUCATION

Contentful Certified Professional + Personalization Skill Badge (October 2025)

Computer Programming & Analysis (Advanced Diploma), George Brown College (2021 – 2024)

Dean's List (all terms). Coursework: Machine Learning, Data Structures & Algorithms, Full-Stack Development.
