WORK EXPERIENCE

Developer (Contract)

Atelier Dacko | April 2023 – Present | Sole developer for a custom jewelry brand

- **Moved average Google position from 38 to 13 in 16 months,** ranking 44 non-brand terms on page one and growing search impressions 78%, working with the SEO lead and two designers.
- **Cut product description writing from 30 to 5 minutes each** with a local LLM pipeline and Claude Code, saving about 80 hours across 200+ live product pages.
- **Running a WordPress to Shopify migration as a hybrid launch,** with both platforms sharing one domain through a Cloudflare Worker. Planned three releases with 7 launch gates and tested 144 URLs before cutover.
- **Built the custom Shopify theme on Dawn with 46 custom sections** (Liquid, JSON templates, metafields), with Theme Check and a CSS guard run on every commit.
- **Rebuilt the WordPress site on Elementor Pro and a Salient child theme** with ACF and PHP in a 2024 redesign, cutting load time 25% and page size 40%.

HubSpot CMS Developer (Contract)

Neurative AI | January 2026 – April 2026 | First website for a new AI company, launch paused by the business

- **Built a Marketplace-standard HubSpot theme with 22 reusable modules** and drag-and-drop templates for 10 pages from Figma designs.
- **Scored 95 for performance and 90 for accessibility in Lighthouse,** built to WCAG 2.1 AA, and owned all HubSpot work through QA and peer code review.

Shopify Developer (Contract)

Geeked Out Goods | January 2022 – May 2023 | Project-based contract for an online store with a 400+ item catalog

- **Replaced manual product entry with a Python pipeline** that checks each product's images, title, description, price and quantity before upload.
- **Built the pipeline in 20 hours after 100 hours of manual entry,** then handed it to the owner to run.

PROJECTS

- **Jobhunt (Python, SQLite, llama.cpp):** Local job-search tool that scores postings from nine job-board APIs and drafts tailored resumes, with checks that block invented claims. 1,210 tests.
- **Local-LLM (Python, llama.cpp):** Three local models behind one router, scored by an eval suite and judge panel.

EDUCATION AND EARLIER CAREER

Advanced Diploma, Computer Programming and Analysis | George Brown Polytechnic | 2024 | Dean's List
